

DEVELOPMENTAL SCREENING DAY
For 3, 4, & 5 Year Old Children
to be held on
Tuesday, March 16, 2021 and Thursday, March 18, 2021
9:00 a.m. – 2:00 p.m.
School District of Niagara

The School District of Niagara will be sponsoring two Developmental Screening Days on **March 16, 2021 and March 18, 2021**. This event serves many purposes. First, it presents the opportunity for preschool-aged children in the district to participate in a developmental screening to assess developmental progress. It also provides parent awareness of intervention services available in the district and identifies children requiring these special services. Last, this event provides resources/materials for parents to use at home with their child. A vision and hearing screening will also be available.

The School District of Niagara continues to follow the masking guidelines and social distancing will be observed.

Your child must be three, four, or five years old by September 1, 2021, and must be a resident in the **School District of Niagara or apply for Open Enrollment to the district (<http://dpi.wi.gov/open-enrollment>)** in order to participate. We invite you and your child of 3 to 5 years of age to participate. **If your child has not participated in a previous screening, please call and register.**

If you have concerns regarding your child's development, please call the school at 715-251-4541 ext. 105. Again, the screening will be held on Tuesday, March 16, 2021 and Thursday March 18, 2021 from 9:00 a.m. to 2:00 p.m. Please call Kerri Oratch at 715-251-4541, ext. 105 to pre-register.

Please bring the following materials with you to the screening:

- **Certified copy of Birth Certificate**
- **Your child's Immunization Record**

We look forward to meeting you and your child.
