

A Peek at our Month

December Theme: Gingerbread & Christmas

In Reading and Writing

Gingerbread, Christmas, and kindness will be some topics we are reading about. Continue learning sight words such as it, in, if, we, be, like, and, said. Reading lessons on setting, characters, and rhyming words.

In math

We will continue to identify teen numbers and introduce numbers in the twenty's family. Children will be learning to write equations for addition and subtraction within five.

In Science/Social Studies

Kindness is our topic this month. We will be learning about force and construction words in science.

Important Reminders

- ~December 13th we will be constructing gingerbread houses.
- ~December 15th at 9:00 a.m. in the auditorium is the Elementary Winter Program.
- ~December 21st, 2023: Kindergarten Christmas party! Wear Pajamas!
- ~December 22nd, 2023-January 1st, 2024: Christmas Vacation!!

At Home Learning

Blending individual sounds to form a word requires children to put together discrete elements. Children need to recognize each syllable as a separate entity before they can blend two syllables. This helps children think analytically about the fact that a word can have one or more parts.
