# SCHOOL DISTRICT OF NIAGARA

## STUDENT EDUCATION TECHNOLOGY ACCEPTABLE USE AND SAFETY

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning to incorporate the vast, diverse, and unique resources available through the Internet. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services to enhance the instruction delivered to its students. The District's Internet system does not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose. This policy and its related administrative guidelines and the Student Code of Conduct govern students' use of the District's computers, laptops, tablets, personal communication, network, and Internet connection and online educational services ("Education Technology" or "Ed-Tech"). The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Education Technology. Users have no right or expectation to privacy when using the Ed-Tech (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the network and Internet).

The Board encourages students to utilize Education Technology to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet and online education services is guided by the Board's policy on instructional materials.

The Internet is a global information and communication network that provides a valuable opportunity to education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access relevant information that will enhance their learning and the education process. Further, the Education Technology provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such a vast quantity of information and resources brings with it, however, certain unique challenges.

The Board may not be able to technologically limit access to services through its Education Technology to only those that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the District Administrator, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measures may not be disabled at any time that students may be using the Education Technology if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

# SCHOOL DISTRICT OF NIAGARA

The Board utilizes software and/or hardware to monitor online activity of students and to block/filter access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. "Harmful to minors" is a term defined by the Communications Act of 1934 (47 U.S.C. 254(h)(7)) as any picture, image, graphic image file, or other visual depiction that:

- A. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- B. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- C. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

At the discretion of the Board or the District Administrator, the technology protection measure may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measure may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act.

The District Administrator or Technology Coordinator may temporarily or permanently unblock access to websites or online education containing appropriate material if access to such sites has been inappropriately blocked by the technology protection measure. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measure.

The District Administrator or Technology Coordinator may disable the technology protection measure to enable access for bona fide research or other lawful purposes.

Parents are advised that a determined user may be able to gain access to services on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

The District Administrator shall prepare guidelines which address students' safety and security while using e-mail, chat rooms, instant messaging and other forms of direct electronic communications, and prohibit disclosure of personal identification information of minors and unauthorized access (e.g., "hacking") and other unlawful activities by minors online.

Education Technology is provided as a tool for education. The School District reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the School District and no user shall have any expectation of privacy regarding such materials.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent with the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., "hacking"), cyberbullying, and other unlawful or inappropriate activities by students online;
- D. unauthorized disclosure, use, and dissemination of personal information regarding minors.

# SCHOOL DISTRICT OF NIAGARA

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building Principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Education Technology. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response. All users of District technology resources (and their parents if they are minors) are required to confirm their agreement to abide by the terms and conditions of this policy during the annual student registration process.

Students will be assigned a school email account that they are required to utilize for all school-related electronic communications, including those to staff members and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned email account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students and staff members are responsible for good behavior on the Board's Education Technology just as they are in classrooms, school hallways, and other school premises and school-sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Education Technology that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Students shall not access social media for personal use from the District's network, but shall be permitted to access social media for educational use in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users of the Board's Education Technology are personally responsible and liable, both civilly and criminally, for uses of the Ed-Tech not authorized by this Board policy and its accompanying guidelines.

The Board designates the District Administrator and Principals and Technology Coordinator as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of the District's Education Technology.

# SCHOOL DISTRICT OF NIAGARA

## DEVICE HANDLING AND RESPONSIBILITY FOR DAMAGES

Below is a summary of the major points of the device that will be issued to Niagara student:

- All students grades 2-12 will be issued a Chromebook.
- Students will be responsible for ensuring their Chromebook stays in the condition it was received in.
- Should a Chromebook be damaged or defaced the student’s guardian will be billed for repair or replacement of the device. Device components are replaced at cost and are the responsibility of the guardian.
- Defacement will also be subject to fines and disciplinary action. This includes graffiti, application of stickers, removal of labels, etc.
- Students will be instructed in proper care of the device at the beginning of the school year by the Director of Technology.
- A student will be responsible for any and all damages. Accidental damage or intentional damage shall be handled the same.

The full technology handbook will be made available for review on the school district website.

## Birth Certificate Verification

Wisconsin law strictly prohibits copying student birth certificates. Making a photocopy of a true certified copy of a birth certificate for the school file poses a liability risk to staff and school districts. This is also true for schools that legally accept true certified copies of birth certificates and put the legal copies in a student's file. The School District of Niagara has created this form to annotate the viewing of the true certified copy of the student's birth certificate.

Using a legal birth certificate, substantiate the below information. (PLEASE PRINT)

### STUDENT'S COMPLETE LEGAL NAME AS SHOWN ON THE BIRTH CERTIFICATE

CHILD FIRST NAME \_\_\_\_\_

# NIAGARA ELEMENTARY 4K-5

## WISCONSIN SCHOOL DAY MILK PROGRAM

### 2023-2024 PARENT PERMISSION FORM

The Niagara School District will offer the Wisconsin School Day Milk Program for students in grades 4K-5. (This is the milk that is served in the classroom during snack time) The current cost is \$0.40 (40¢) for a half pint. This price is subject to change if purchase costs rise, however, if your family qualifies for free or reduced meals via Direct Certified or the Alternate Household Income qualification, the WSDMP cost will be zero.

**NOTE:** Although our school qualifies for the Community Eligibility Provision (no cost for breakfast or lunch) – **this “snack” milk is not included**. If you do not qualify for free or reduced priced meals through the above process, this milk will be charged to your family meal account.

- The annual cost for snack milk per student is approximately \$70.00 per school year
- There must be money in the Family Food service account for participation in this program (Yearly payment is recommended)
- The Food Service Policy can be found in your student’s handbook or on our website

If your child cannot drink milk due to an allergy or other condition, your child may receive a 100% fruit juice as a substitute. Substitution is allowed only by a written order from a physician.

\* Please fill out the below information and return to your child’s teacher by **September 10<sup>th</sup>** \*

<u>STUDENT LAST NAME</u>	<u>FIRST NAME</u>	<u>MIDDLE NAME</u>
* _____	* _____	* _____

Dear Parents and Families,

As we start off the new school year, we would like to remind everyone of a few important things listed below. We are so excited to see everyone and we wish you all a year full of learning, fun, and new experiences. For a better understanding of some of the policies and procedures, please take a few minutes to review this information. Additional information can be found in the Student Handbook. Thank you!

- All visitors must sign in at the front desk.
- The Food service account should have money in it at all times. This account is not a charge account. **Families must prepay for food service.** There should never be a negative balance.
- Bus switching is only allowed for **daycare** or **emergency** purposes. All requests must be in writing.
- If you have not done so already, please go online and complete the registration for **returning students**.
- Parents – reminder to check **family access** – there is a wealth of information available. If you have trouble accessing your family access, please call the office!
- The school year **calendar** can be found on our website. [www.niagara.k12.wi.us](http://www.niagara.k12.wi.us)  
Events, announcements, sports schedules, staff, etc., can also be found on our website!
- Parents must call their student in for **attendance within 48 hours**. 715-251-4541; option #1.  
This line is available 24 hours a day!
- **Badger Care registration** must be done every year. The **purple request form** for Badger Care is mandatory and must be in writing on the purple form. This before/after school childcare service is for 4K-5 students whose parents are working or continuing their education during the time Badger Care services are scheduled.
- If you have not done so yet, please bring in a **certified birth certificate** for office verification (for all your students.) We cannot copy the birth certificate but need to verify it. It will be returned immediately to you. This process only takes a few minutes.
- Please **label** all your children's belongings. (coats-hats-mittens-shoes-boots-school supplies, etc.)
- Any **medication**, (over the counter and/or prescription) **must be given to the school nurse**. Please call Mr. Moreau for drop off or pick up. 715-251-4541, option #5.
- Please review additional policies and valuable information in your **child's student handbook**. The handbook can also be found on our website! (Grades 1-12 will also have a copy of it)
